

ICDM ENERGY

WHO WE ARE

ICDM are energy and environmental consultants established in 1994 with an outstanding track record. We manage research and Intellectual Property acting as 'client' representative within specialist processes and co-ordinating successful energy projects.

We work and share our diverse skills with our associated specialist consultants, representing national and international companies in various sectors.

We value clarity, competence and communication in our work. We trade within our ISO Quality and Environmental Management Systems, Safe Contractor, as well as working with the regulators and key stakeholders.

WHAT WE CAN OFFER

- Energy & Water Consultancy and Carbon Management
- Regulatory Compliance Advisor (CRC, ESOS, CCL, GHG)
- Smart Metering and Online Energy Management
- Energy Purchasing and Invoice Validation
- Green Energy and Storage Solutions
- Project Management and Funding

PORTFOLIO

Areas of work include the London Olympic Park Energy Centres, Power Stations, District Heating Networks, Back-up Generation, Education and Health in both public and private sectors.
