

# ICDM Company Profile

International Construction Design and Management Ltd, established in 1994 at the inception of the Planning Supervisors responsibilities under the original CDM Regulations 1994. Then CDM Coordinator under the Construction (Design & Management) Regulations 2007. Due to the changes incorporated into the CDM Regulations 2015, we have been acting as Principal Designers to Clients to ensure they fulfil their duties, delivering expert advice and support across a range of industry sectors.

ICDM are a specialist company of Construction Design and Engineering Professionals, with proven expertise in many sectors, offering a multi-disciplinary, flexible and cost-effective consultancy supporting end-users. Focusing on providing our Clients with up-to-date and pragmatic advice having worked on over 2,000 projects ranging in value from £30,000 to £3.5 billion in locations across the UK in the follow areas;

- Principal Designer (Regulatory Compliance)
- Energy Consultants
- Fire Consultants
- Employer's Agent
- Cost and Project Management
- Design Coordination (Energy Efficiency, Flexibility)
- Construction Process Management and Occupation
- Bespoke "specialist services" in high risk project environments

Our Clients include, GE Grid Solutions, E.ON, Cofely/Engie, Veolia, British Gas, the 2012 Olympic Park, MG Motor (UK), Landrover, Whitehall, The BBC, Birmingham Airport Ltd, NHS Primary Care Centres, The British Museum, China Sanan, SAIC, XPO Logistics, Cambridge Assessments, BMW, Amgen UK, Sophos and many more, in the public and private sectors.

As a Corporate member of the Association for Project Safety, ICDM is able to demonstrate that we have the relevant level of skills, knowledge and experience to act as Principal Designers/CDM Advisors and were nominated as one of the top three CDM Consultancies in the UK (2010).

We are Accredited with Safe Contractor SSIP (Safety Schemes in Procurement), Avetta, Pagabo Framework, Constructionline as Principal Designers. Members of the Birmingham Health Safety and Environmental Association (BHSEA), Birmingham Chamber of Commerce and the HSE WWT. We hold individual membership of The Association for Project Management (APM), Royal Institute of Chartered Surveyors (RICS), Chartered Member of the Institute of Occupational Safety and Health (CMIOSH) and General Airport Security Awareness Training (GSAT).

International status and Tier 2 UK Border Agency sponsorship allows us to work with international technical expertise from around the world on UK projects.

The ICDM team is supported by specialist consultants with unique construction, energy and engineering experience. We provide an integrated, complementary and flexible service to suit your projects requirements, operating under ISO9001 (Quality), ISO14001 (Environmental), OHSAS 45001 (Occupational). ICDM fully supports the principles of the Investors in People Standard having been awarded Silver status.

ICDM have advised HM Government on the future UK Energy Policy through our position on The Electrical Energy Storage Network committee.

We have completed scientific and engineering research and have International patents (Global Power and Energy) in the areas of energy storage, waste heat and electrical salvage technology; this improves system efficiencies, reduces energy requirements and the carbon foot print.

We believe in forming and maintaining close relationships with our Clients through regular communication. This, together with having the necessary systems in place, ensures that we can give the right information to the right people at the right time – the key to effective CDM 2015.
